J.J. Keller's FLEETMENTOR®

Repair & Maintenance Costs

REPAIR & MAINTENANCE COSTS

This feature allows you to set up a service file for recording cost over time by vehicle, by work performed, and cost per mile. Tracking this information will allow you to make positive business decisions pertaining to expense of a vehicle versus the revenue generated by that vehicle. This information can then be used in the determination and establishment of repair/replacement benchmarks for each piece of equipment.

Search service files by: Unit/Plate # Location

Unit #: Plate #:

► [Set up service file](#)

Instructions: Set up one service file per vehicle. Repair and maintenance costs are entered inside the service file.

Unit No.	Plate No.	Year	Make	Model
There are no repair/maintenance records that match this criteria.				

Set up a service file for recording repair and maintenance cost over time. Report cost by vehicle, work performed, or cost per mile. Tracking this information will allow you to make better business decisions regarding the expense of a vehicle versus the revenue generated by that vehicle. This information can then be used to establish repair and replacement benchmarks for each unit or piece of equipment.
